

Bonn zoological Bulletin	Volume 60	Issue 1	p. 113	Bonn, May 2011
--------------------------	-----------	---------	--------	----------------

**Erratum to:
Sonnenberg & Busch (2010) Description of *Callopanchax sidibei*
(Nothobranchiidae: Epiplatinae), a new species of killifish
from southwestern Guinea, West Africa**

Rainer Sonnenberg^{1,2} & Eckhard Busch³

² Max-Planck-Institut für Evolutionsbiologie, August-Thienemann-Strasse 2, D-24306 Plön, Germany

³ Diederichsstrasse 45, D-42855 Remscheid, Germany

Erroneously the name of the new species was formed as a noun in genitive case for a single male person (ICZN, Article 31.1.2), however, in the text it refers to:

.....The new species is named after Mr. Samba Sidibe **and** his family.... (Sonnenberg & Busch 2010, p. 11, bold introduced here for clarification).

Therefore the species name should be formed in plural with the ending *-orum*.

In accordance with the International Code of Zoological Nomenclature (4th Edition, 1999), Article 32, we propose as correct species name *Callopanchax sidibeorum*.

Acknowledgements. We thank Wolfgang Böhme (ZFMK, Bonn) for alerting us on this mistake in the publication and his advice for this Erratum.
